What's New in the?

There are two main ways to create a rock climbing guide/ beta photo: - Drawing a map with a GPS device: set the camera in place, mount it and use the pen. - Guiding the camera using a camera: set the camera in place, mount it and guide it with the camera. The following steps will explain how to use this application. 1. Install the program ----- Copy the "betaCreator.swf" file from this folder to the "Applications" folder. - Install the "betaCreator" application. 2. Choose from the type of beta ----- Use the "Preview Beta" button to choose the type of beta: Trail / UIA or Route. - Choose your camera from the "Camera" menu. - Select "Do not use this camera (for example, not all buttons are functional)" from the "Camera" menu if you want to preview beta on a mounted camera. 3. Preview your beta ----- If you want to preview beta on a mounted camera, the camera must be set to the "interactive preview" option in the "Camera" menu. - Use the "Cancel" button to return to the "Guiding" menu. - Use the "Save and Share" button to save your beta to the "My Photos" folder and share it via the "Share" button. 4. Guiding

----- - Move the “Guide Camera” button to any position from the “Guiding” menu. - Move the “Cancel” and “Save and Share” buttons to the desired position from the “Guiding” menu. - Draw a guiding line using the “Pen” from the “Guiding” menu. - Draw several guiding lines if you wish. - Guiding lines can be: freehand line, the path of a route, the path of a trail, the route of a route. - The map can be colorized with a range of colors in the “Guiding” menu. - You can add markers to the map. - The map can be scaled down to a smaller size if necessary. - Each photo can be added as a frame to the guide. 5. Take a photo from the map ----- - The “Take Photo” button is disabled when beta is being created. - Choose the photo from the “My Photos” folder. - Set the “Capture” setting on the “Camera” menu. - Set the size of the photo from the “Camera” menu. - Set the
