RScreen Activator Download

----- KEYMACRO (KBKST Macro) is an easy-to-use, fast, and powerful macro recorder/player. It can record keyboard macros to a single file or multiple files and the playback works in real-time. When recording the user has to remember a certain combination of button presses that will take them to the macros they want to record. It is as easy as 1-2-3, once pressed the sequence is recorded into a single text file or multiple text files.
KEYMACRO Features: ----- - Easy to use - Less than 5 minutes to record - Fast - Record as fast as you can type - Easy to use - No specialized keyboard skills required - Power - Record from any PC/MAC device with Windows/Linux operating system - Multiple languages support - Chinese, Japanese, French, Italian, Dutch, German, Spanish, Russian, Portuguese - Built-in archive function - Records to a single file or multiple files, supports to archive after each recording - Built-in player - Quickly play any recorded file in real time. - Built-in scheduler - You can select the recording time and the recording to be played from a list. - Built-in undo/redo - A button to quickly undo/redo the current recording. - Built-in slideshow - You can select the number of the slideshow and create a custom slideshow. - Built-in settings - You can set the recording time, the number of the slideshow, the playback speed, and the current recording to be played. - Built-in icon - You can set the icon and background image of the macro file with the custom icon, set the background color, set the current program as the title, and set the icon for the current program. - Built-in zip/zip archive - You can create a zip archive with a list of macros. You can quickly import the macro list into KEYMACRO. - Built-in image/folder resource - You can record the command to open a folder or image file, and play it back. - Built-in hotkey - You can record the hotkey into a macro and play the hotkey. - Built-in gallery - You can record the "show gallery" command and play the command. - Built-in color button - You can record any button and play the button. - Built-in smart button - You can record any button and play the button, smart to 1d6a3396d6
