K-Lite Codec Pack Mega Serial Key For PC

Tips & Tricks i recently installed this codec pack. my problem is that all the videos i play in windows media player (video streaming from internet) dont play anymore. im pretty sure this problem is related to the way this codec pack has been installed.. how can i solve it? 1 answer Hi tung, What video files do not play anymore? Are the videos in your system? If they are in your system, you can try to reinstall the K-Lite Mega Codec Pack and let us know how it goes. If you are referring to streaming videos from the internet, please try to watch them on your system and if you still don't see any play back, please try to re-install the codec pack again. If the videos aren't in your system, we are sorry but I don't think that this package will have any effect on the videos that you play. Thanks for visiting our support forum, and we wish you a good day. Questions about K-Lite Codec Pack: I just installed the codex pack today. and it installed without problems. Im wondering though if i need any additional codecs. I have played 2 video files without any problems. But if i try to play another one, it doesnt play. But if i go back to windows media player (windows 7) and play the same video file there, it plays fine. I play the files using totem btw. thank you joe Answers Answer: You have to uninstall the Mega Codec Pack. To do this, you can click on Start, type "Control Panel" and then click on "Add or Remove Programs". In the search box, type "Mega Codec Pack" and then delete the package. When you are done, restart the computer and then download the K-Lite Mega Codec Pack. I have used your video link before to convert movies and it worked fine. But i was wondering if you could help me. I have an mp4 video that i can play in a windows media player, but i cant when i convert to a dvd iso. im using Nero Video 7 to convert. the video runs fine in windows media player but when i click play in Nero Video theres nothing in the window and i cant seem to get the video file converted. is there a problem with my software or a incompatibility with the codec.
