For example, installing AutoCAD 2017 as a standalone product requires product key 00111, but installing AutoCAD 2017 from AutoCAD Design Suite Ultimate ... (2017) requires product key 001K7. Also, AutoCAD 2016 (not 2015 or 2017, but 2016) is currently installed even if you have a 002K1 product key. As you can see, there is not enough data and information in the question to answer your question. Hope this helps I had the same problem with my new computer. I bought it because I liked the Windows interface and wanted to install AutoCAD as a standalone product. It asked for a product key, but I couldn't find it.
