data [?](#) Search and Replace in Data window, over 2.2 million terms, it is efficient and reliable. - simulation and distributions: Random number generator [?](#) Help files [?](#) Support double-precision worksheets [?](#) Feature: [?](#) Import Microsoft Excel workbook sheets individually [?](#) support import currency formats [?](#) Support Double-precision works  
6a5afdab4c

Fast Statistics is a Statistical and Graphical Analysis program for MS Excel, it can work as an Excel add-in and stand-alone software without excel installed, perform from basic data manipulations to the most advanced statistical analyses and produce sophisticated reports and charts. This is a ideal tool for Six Sigma, descriptive statistics, ANOVA, regression, dummy regression, intelligent data input, factor analysis, nonlinear regression, box plots, nonparametric tests, and correspondence analysis. Fast Statistics includes more than 50 functions covering data and statistical-analysis requirements (preparing, describing, analyzing, and modeling data). Excel utilities have also been included to facilitate charting and data manipulation. Complementary modules are available. Fast Statistic also gives professionals engaged in quality improvement the powerful, reliable, and easy to use tools they need to effectively analyze hard data while managing large and complex projects. It is the ideal package for Six Sigma and other quality improvement projects. From Statistical Process Control to Design of Experiments, it offers you the methods you need to implement every phase of your quality project. Here are some key features of "Fast Statistics": Easy to Use [?](#) works as an Excel Add-ins [?](#) Read and edit Excel 95/97/2000/XP files (do not need MS Excel installation) [?](#) Intelligent data input system [?](#) Comprehensive HTML Help Data and File Management [?](#) Export HTML Statistical and Graphical Analysis report [?](#) Import and export: Excel, text, and other data formats [?](#) Import Microsoft Excel workbook sheets individually [?](#) support import currency formats [?](#) Data manipulation [?](#) Search and replace in Data window [?](#) support Double-precision worksheets Simulation and Distributions [?](#) Random number generator [?](#) Density, distribution, and inverse cumulative distribution functions Statistics [?](#) Basic statistics: Display descriptive statistic, Correlation, Covariance [?](#) Hypothesis test: Sign test, Wilcoxon rank sum test, Z test, T test, Chi squared test, F test [?](#) Analysis of Variance(ANOVA): One way ANOVA, Two way ANOVA, Interaction plot, Main effect plot [?](#) Regression: Multiple linear regression, Dummy-variable regression, Non-linear regression [?](#) Nonparametrics : Friedman, Kruskal-Wallis [?](#) Goodness

#### What's New in the Fast Statistics?

Fast Statistics is a Statistical and Graphical Analysis program for MS Excel, it can work as an Excel add-in and stand-alone software without excel installed, perform from basic data manipulations to the most advanced statistical analyses and produce sophisticated reports and charts. This is a ideal tool for Six Sigma, descriptive statistics, ANOVA, regression, dummy regression, intelligent data input, factor analysis, nonlinear regression, box plots, nonparametric tests, and correspondence analysis. Fast Statistics includes more than 50 functions covering data and statistical-analysis requirements (preparing, describing, analyzing, and modeling data). Excel utilities have also been included to facilitate charting and data manipulation. Complementary modules are available. Fast Statistic also gives professionals engaged in quality improvement the powerful, reliable, and easy to use tools they need to effectively analyze hard data while managing large and complex projects. It is the ideal package for Six Sigma and other quality improvement projects. From Statistical Process Control to Design of Experiments, it offers you the methods you need to implement every phase of your quality project. Here are some key features of "Fast Statistics": Easy to Use [?](#) works as an Excel Add-ins [?](#) Read and edit Excel 95/97/2000/XP files (do not need MS Excel installation) [?](#) Intelligent data input system [?](#) Comprehensive HTML Help Data and File Management [?](#) Export HTML Statistical and Graphical Analysis report [?](#) Import and export: Excel, text, and other data formats [?](#) Import Microsoft Excel workbook sheets individually [?](#) support import currency formats [?](#) Data manipulation [?](#) Search and replace in Data window [?](#) support Double-precision worksheets Simulation and Distributions [?](#) Random number generator [?](#) Density, distribution, and inverse cumulative distribution functions Statistics [?](#) Basic statistics: Display descriptive statistic, Correlation, Covariance [?](#) Hypothesis test: Sign test, Wilcoxon rank sum test, Z test, T test, Chi squared test, F test [?](#) Analysis of Variance(ANOVA): One way ANOVA, Two way ANOVA, Interaction plot, Main effect plot [?](#) Regression: Multiple linear regression, Dummy-variable regression, Non-linear regression [?](#) Nonparametrics : Friedman, Kruskal-Wallis [?](#) Goodness
