System Requirements:

This addon requires the AuraCraft 2.0.1 client and the SlurpCraft 2.0.1 client. It should function fine on both the 2.0 and 2.0.1 versions. However, I tested it on both 2.0 and 2.0.1 and it seems to work fine on all of the different mods I've tested. I'm not sure why it wasn't included in the default installation of the SlurpCraft 2.0.1 client. 0.8.2 Changelog:
