Download Dictier Gui - a program designed to edit text in automatic writing mode. Before you start working, you need to load the text and select the fonts available in the document. The "Device" window will appear on the screen, where you can select a point and prepare a brush. After that, you need to enter the text. The text can be changed and corrected. After clicking on the "OK" button, a context menu will appear, allowing you to select a different font or point. Despite the relatively small size of the program, working with it is very easy. An interesting feature of the program is the ability to write text in Microsoft Word format. After recording, the text can be edited on the computer in real time.
