It's difficult to know what to do. You and your friends spend a lot of time together, and a single thing can easily sour the relationship between you. Maybe a silly fight over which game to play or whether that guy is really as cool as he seems... But maybe you never did find the right words to make your friends know you appreciate them. We all have those

moments when we want to say something. But it is difficult to know what to say, and even more difficult to know how to make your message stand out. With WickrMe, your relationships become a lot safer and easier to handle. Not only you will enjoy the power of instant messaging with a focus on security, but you will also be able to send your friend a message that makes them feel special, a smile, or a funny picture. You can also send your friend's your favorite song or a short movie to

make them laugh or smile. How to get started? 1) Open a secure instant messaging channel with your friends: 2) Type a name and click on the box next to it to send a message to that person: 3) Enjoy messaging your friends in a new and more secure way! Please note that the application can only be used on iOS, Android and Windows Phone devices and that an account needs to be created in order to use it. **IMPORTANT:** after creating a Wickr account, you must log in

to the app before using it. What's New -
