Alex Iwobi insists Arsenal's current run is more about maturity than anything else Alex Iwobi insists Arsenal's current form is about more than a run of three successive Premier League wins. The Gunners have won their past three matches, beating Manchester City, Everton and West Brom without conceding. It has seen them leapfrog their title rivals into second place, and Arsenal midfielder Iwobi says it is about more than just the team's recent upturn in form. "It was only a few weeks ago that we were playing really good football, we were just a minute away from beating Chelsea and winning the game," Iwobi told TheFA.com. "Yes, we have won three games, but it's not just a case of the run of form. We came from behind against City, we played two games and beat Everton and West Brom. It's a matter of growing into the league and getting used to playing with each other. "We are improving every week. We're getting better and better, but it just takes a little bit of time. I think it's more about maturity and being consistent, and us growing as a team. "That's one of our positives, and the fact that we've picked up points away from home. We're not going to be winning by 10 every time but we're improving, and we're getting better as a team." Iwobi has played four times this season, but still doesn't feel like he is in his best physical shape. "Yes, it is a long season, but at the same time, I feel it will all come together," he said. "The manager has spoken a lot about it, and talked about the time and again for me to focus on my game and working hard for three months and come into the season with

a fresh mentality. "I want to use this opportunity to get back into the Arsenal team and show what I can do. We have a lot of young players who want to play, they just need to keep pushing for time and be given that chance." David Luiz became the 29th player to play for Arsenal at some stage and Iwobi added: "Seeing David play in the first team was amazing. It was incredible. We all know he is a very good defender and he is a massive, massive player. "It was amazing seeing him out there. He is one of the best centre-backs in the world

Q: python 3: how to add some lines to a file I am writing a script that adds a function to a file, let's call it f.py I have checked the file and I know where I want to add the function. My problem is that I'm not sure how to use this module import os fn = open('f.py', 'r') for line in fn: if '__doc__' in line: print(line) if '__name__' in line: print(line) if '__package__' in line: print(line) print(line) This will add the doc to the __doc__, but I also want to add the code starting with from.... to a variable and set it import random from math import sqrt def max_connections(self): global conn_count conn_count = 0 while True: try: if conn_count > 10: conn_count = 0 if len(irc_server.servers) > 5 and random.randint(1, 5) > 0: conn_count += 1 except: conn_count += 1 else: conn_count += 1 return conn_count Then I want to add this string so it adds the function to a variable "max_connections" max_connections = 0 I tried to do something like that, but it doesn't work. Just to clarify, this is where I want to add the function (I don't know how to do

it), I am doing this just to be sure I'm understanding how to do it, I will ultimately
