Chaetocnema (Metallaria) luzandrii Chaetocnema (Metallaria) luzandrii is a moth of the family Micropterigidae. It is endemic to the Democratic Republic of Congo, where it is found in the Ituri rainforest in the province of Maniema. References luzanthi Category:Endemic fauna of the Democratic Republic of the Congo Category:Insects of the Democratic Republic of the Congo Category:Moths described in 2001Jana, This sounds good to me. Vince -----Original Message----- From: Amador, Joseph Sent: Thursday, July 26, 2001 7:38 PM To: Kaminski, Vince J.; Krishnaswamy, Jayant; Subramaniam, Aarthi; Mallik, Dimitri; Dhont, Margaret; Ring, Andrea Cc: Mittal, Heena; Mahip, Sandeep Subject: Earnings Estimate Calc - Using Bloomberg Folks, I have a question regarding the earnings estimate calc. I am getting a lot of unwanted files when I run the earnings calc. For example, I have a file that worksheet "jjanearning.xls". When I run the calc, it gives me a file as "jjanearning.xls#1". Also, the file name changes each time I run the calc. For example, jjanearning.xls#1 changes to jjanearning.xls#2. I don't want this. Also, I have a file that worksheet "jjanearning.xls#1.xls". This file changes each time I run the calc. This is a different file name. Both of these should be seen as a single file, and be seen as an Earnings Estimate Calc... What am I doing wrong? Thanks, Joseph Amador x37587As the value and use of information continues to increase, individuals and businesses seek additional ways to process and store information. One option is an information handling system. An information handling system generally processes, compiles, stores, and/or communicates information or data for business

What's New In?

Typewriters , Adobe Photoshop CC 2017 Tips , Tutorials , Adobe Photoshop CC 2017 Tutorials . In this Photoshop CC 2017 tutorial, you'll learn to make a handwritten text appear like a typewriter. Step 1: Select a Text Vector Pattern Click the Brush tool in the Tools panel. Select the Pencil tool and then click in the document to position the cursor. Click and drag over a text element and then release the mouse button. The text is now a vector pattern that you can edit. Step 2: Add a Layer Style Click the Add Layer Style button (it looks like an arrow pointing down) to add a new layer style. Pro Tip: You can apply layer styles to the text layer if you want to edit the style later on. To do that, select the text layer in the Layers panel, click the Layer Styles button at the bottom of the Tools panel, and click the layer style that you want to apply. Step 3: Add a Vector Pattern Brush Press and hold the Alt key on the keyboard to access a list of brushes. Click the new Pencil brush. Step 4: Choose an Ink Color Click in the document to select a spot on the text. Choose an ink color for the first ink brush. Step 5: Select a Vector Pattern Brush Select the second ink brush. You can do that by clicking once in the document or by selecting the brush in the Brush Presets panel. Step 6: Create a Vector Stroke Click the Draw Path button to convert the first ink brush into a vector stroke. Step 7: Add Another Vector Stroke Click the Draw Path button to convert the second ink brush into a vector stroke. You may need to adjust the ink brush settings a little bit. Choose a light, bright color for the third ink brush. I chose the color #FFFFFF (white). Step 8: Add a Gradient Overlay Click the Gradient tool in the Tools panel. Click the icon with two lines to add a gradient. Step 9: Create a Gradient Click in the document to select the text element. Click once to make a selection. Step 10: Create a Gradient Fill Click the Gradient Tool in the Tools panel and select Linear from the radial menu. Step 11: Draw a Gradient Click and drag in the document. The gradient fills the selection with the color of your choice
