More questions in Wednesday's bus payments survey Wednesday (April 11) is the first day that Caltrans will begin issuing penalty citations for bus operators who don't pay their fare boxes for the time it takes to board or alight the transit system. What kind of challenges will operators in San Francisco face when they show up to do business with the city in the coming week? What happens to their next bus ride? San Francisco Public Press is publishing a survey of bus operators to get a handle on these kinds of questions on April 16 and 17. The San Francisco Municipal Transportation Agency plans to take a closer look at the new bus payment program in June.1. Field of the Invention The present invention relates to a foot-operated brake apparatus, specifically a foot-operated brake apparatus with a power-off release function for automatically releasing a brake for a vehicle. 2. Description of the Related Art Known art for foot-operated brake apparatuses, or for brakes used in combination with such apparatuses is disclosed in Japanese Laid-Open Patent Application Nos. 5-102732, 6-109236, 7-137019, etc. A foot-operated brake apparatus (hereinafter referred to as a brake), disclosed in Japanese Laid-Open Patent Application No. 5-102732, has a brake pedal (hereinafter referred to as a brake pedal), a support member for supporting the brake pedal in a brake-inoperative position, an operating lever and a rod supported by the support member in parallel with one another, a cross member disposed on the rod for supporting an operating shoe via a brake shoe, and a rocking piece disposed on the cross member to rock the operating shoe upward. The brake pedal is in contact with the operating shoe and is placed in the brake-inoperative position, in which the operating shoe is lowered and does not exert a brake function on the brake pedal, by an elastic member disposed on the support member. When the operating lever is depressed in a direction
