My current editor says it's okay to submit a single linked picture as an attachment, but I can't find any way to attach a file rather than an attachment, and the Word import "Add Image" button doesn't work. Please help. A: In Word, you can only upload two pictures at once. However, you can upload one picture and either click the "Insert Picture" button on the toolbar, or click the icon on the status bar and then click "Insert Picture". These options will allow you to choose your picture from Explorer. However, in this case, the picture will not be linked to the document, and thus can only be inserted into the document as a block image, which might not be what you want (depending on the picture). using System; using System.Collections.Generic; using System.Linq; using System.Text; using NLog; using System.Net; using System.Runtime.InteropServices; namespace DD.NET.Windows { /// /// This class wraps the native . /// internal class Win32Exception : Exception { /// /// Initializes a new instance of /// /// The error message for the exception. If the message is null, /// a message will be created for the method. public Win32Exception(string message) : base(message) { } /// /// Initializes a new instance of /// /// The error message for the exception. If the message is null, /// a message will be created for the method.
